

SPACE SHUTTLE MISSION 2007™

PRESS RELEASE:

Space Shuttle Mission 2007™ now supports TrackIR™

February 08, 2008:

Exciting Simulations™ is delighted to announce that with the release of Service Pack 1.2, **Space Shuttle Mission 2007™** now offers full **TrackIR™** support.

TrackIR™ is active in the Space Shuttle 3D Virtual Flight Deck and in the EVA First Person View which allows you to control Astronauts during their Extra Vehicular operations.

You can find more information about **TrackIR™** at the official NaturalPoint website: www.naturalpoint.com.

Space Shuttle Mission 2007™ is available for purchase online in downloadable format at the **SSM2007** official website: www.space-shuttle-mission.com.

Exciting Simulations™ is an entertainment brand name of Simsquared Ltd. – a leading developer of professional Naval Simulation applications.
